Why do you want to be the North Central representative for the AMA Alliance Nominating Committee?

I have an awareness of the people that have been around this year which gives me an insight to encouraging them to move into leadership. I have attended a majority of the ZOOM calls to get a feel of who is attending, interests etc. I have attended NC Regional meetings and know most of the people there. I can easily communicate back with them through our AMAA regional reps if needed. Having chaired this committee once I would like to be on the other side as a committee member to help with the nominating process.

What strengths/qualities do you bring to the nominating process?

Experience (having chaired the AMAA nominating committee) but also being on the AMA Foundation Nominating committee for the past three years and serving on the nominating committees at our state and local alliance and on the Mobile Meals nominating committee. I am familiar with the process and the ability to switch up the process if recommended or needed.
